

All Stars Community Interest Statement

Policy Updated On: 10th April 2026

ALL STARS CLUBS CIC

All Stars is dedicated to providing a safe, inclusive and supportive environment for individuals of all ages with special needs to thrive. We are committed to promoting personal development, social integration and emotional well-being by offering engaging activities that encourage independence, confidence and teamwork.

We aim to empower our members, helping them build skills and relationships that will enhance their quality of life both now and in the future. Our sessions are designed to support the diverse needs of our members in a group setting, give them a sense of community, and reduce the risk of social isolation.

Through collaboration with families, professionals and the broader community, we strive to create a place where every individual feels valued, respected and part of something bigger. By enhancing community awareness and breaking down barriers, we hope to inspire greater understanding and acceptance of individuals with learning difficulties.

We are passionate about creating a positive impact within the community and are continuously working to expand our services to better meet the needs of our members and their families, regardless of age.

Our Community Interest Company (CIC) is fundamentally different from a commercial company because our core purpose is to benefit the community rather than generate profit. Unlike commercial companies, any surplus funds we generate are reinvested into our programs and services, directly benefiting the individuals we support. We are dedicated to providing a safe, inclusive, and supportive environment for people with special needs, with a focus on empowerment, personal growth, and reducing social isolation.

As a CIC, we are accountable to our community, and our activities are guided by the needs of the individuals and families we serve, rather than the pursuit of financial gain. Our approach prioritizes the well-being and development of every member, ensuring that they have access to the resources and support they need, without the pressure of commercial objectives.
